Reducing Barriers 2 Success

The Wear2Start is a unique program established to reduce barriers for women in need. We help women who have completed a job training program make their best impressions in job interviews and the workplace by providing them with a wardrobe. Wear2Start is a non-profit society and registered federal charity. It is operated entirely by volunteers together with community partnerships and private donations. Clients are referred from educational, training, retraining and job preparation programs.

How to Help

Wear2Start, run entirely by volunteers, relies on fundraising and donations of services, gently used clothing and accessories suitable for the workplace.

Money raised helps with expenses such as rent, insurance, office supplies, alterations and dry cleaning. We are a registered non-profit and will provide tax receipts for any donation exceeding \$20.

To add a social responsibility component to your business model, please consider a service donation to Wear2Start. Services such as hair styling, make-up consultation, drying cleaning and clothing alterations are especially in demand. We work to dress women in up-to-date, comfortable and stylish clothing. Gently used shoes, handbags and jewelry are welcome, too. When culling your closet for items to donate, please ask yourself, "Would I wear this if I were going to a job interview tomorrow?"
